PROJECTS

MindSprint

Techonologies : React.js, Tailwind CSS, Node.js, Express.js, MongoDB

- Designed and developed a full-stack quiz application with a focus on responsiveness and an engaging user experience.
- Built the front end using React.js and Tailwind CSS, ensuring a seamless and visually appealing design..
- Developed a robust backend with Node.js and Express.js to handle API requests and database interactions.
- Implemented key features such as dynamic questions, answer selections, a timer, and a real-time leaderboard using MongoDB.

E-commerce App (Forever)

Techonologies : React.js, Vite, Context API, React Router

- Developed a responsive e-commerce web app using React.js and Vite for fast performance.
- Integrated React Router for seamless navigation and Context API for global state management.
- Focused on a pixel-perfect UI with a product catalog, search functionality , login and signup page, and shopping cart.
- Ensured optimal user experience across devices with responsive design and efficient data handling.

Live Weather forecasting App

Techonologies : Html ,Vanilla CSS, Javascript,Weather API

- Integrated a weather API to fetch real-time weather data based on user-provided place names.
- Displayed key weather metrics, including temperature, humidity, and wind details, in a user-friendly interface.
- Ensured responsiveness and optimized the app for seamless performance on various devices.

INTERNSHIP

JAN 24 - FEB 24

Code Soft - Front-End Development Intern

- Developed and designed three projects utilizing HTML, CSS, and JavaScript, showcasing proficiency in front-end development.
- Created a responsive landing page for a mock website, focusing on modern design principles and user-friendly navigation.
- Built a functional calculator application with clean UI and basic mathematical operations using JavaScript.
- Gained hands-on experience in coding standards, debugging, and browser compatibility testing.
- Collaborated with mentors to enhance coding skills and adhere to project timelines.

SKILLS

Languaaages: Java,JavaScript

Version Control : Git , GitHub

Front-end : Html , vanilla CSS ,Reactjs

Backend-end : Node js , Express js

Databases: MongoDB

AWARDS AND CERTIFICATES

- Palo Alto Networks Certification:
 - Earned certification from Palo Alto Networks, demonstrating foundational knowledge in **cybersecurity concepts** and technologies.
 - Completed 9 hours of intensive training, covering areas like threat detection, network security, and firewall technologies.
- Git & GitHub Proficiency:
 - Expert in utilizing Git commands for **version control, including branching, merging, and conflict resolution.**
 - Successfully applied Git skills in **deploying the project** , streamlining collaboration and maintaining code revisions.
 - Leveraged GitHub for code hosting, issue tracking, and project visibility.
- DRDO Paper Presentation:
 - Presented a research paper on **PROTEIN FOLDING** at a prestigious event organized by DRDO, showcasing technical expertise and communication skills.
 - Received recognition for the paper, demonstrating the quality and relevance of your research.
 - Effectively communicated complex technical concepts to a diverse audience of 1500 students.
